Course Descriptions:

Art – Different instructors are scheduled to provide a variety of art experiences that reflect each instructor’s approach to inspiring creativity and drawing out artistic talent in each student. Explore a variety of materials and make a variety of projects from drawings & paintings to 3-dimensional art.

Brain Olympics – Enjoy a fun, mental workout for your brain with brain teasers, riddles, puzzles, and observation challenges that exercise your memory, increase your academic skills, sharpen your cognitive thinking and encourage team building.

Coding Camp – Are you new to coding? If the answer is, “Yes,” this camp is for you! You will go from beginner to expert and even create your own game by the end of the week!

Improv Class – Class moves quickly with improvisations including “Freeze Improvs”; you have to be quick on your feet and fast in your imagination in this fun, fast-paced class.

Intro to Acting – Teaches students stage techniques, improvisation, and teamwork in a fun way. (Please pack a snack for snack time, too.)

Jewelry Making – Learn how everyday objects like paper, clay, pasta, cardboard, yarn, string, wire, beads, and more may be fashioned to create fun, attractive jewelry designs

Marine Biology – Come and learn about the mysteries of the ocean! Dive deep into a coral reef, explore creatures of the dark who use bioluminescence, and investigate an estuary. The very best part, at the end of the week, you may receive your very own fishing pole!

Math Games – Sharpen your math computation skills through drills, games, and other activities for a fun, learning experience.

Movie Making – Write, star in, and edit your own movie which will be available to share with others.

Paper-Pen-Paint Pizzazz – This is a short title for Paper-Pen-Paint Pizazz. Creativity, exploration, and imagination are required! Make collages using a variety of paper and techniques, pen (ink), pencils, paint, and a whole lot of PIZZAZZ.

Puppet Making – Learn to handcraft your very own puppets including string puppets (marionettes) and free-standing puppets. You may even do a puppet show with your creations.

Read-Act Fairytales 6-8 – Discover some fairytales and legends and get dressed up to act out a few of the class favorites. Incorporates reading, comprehension, recall, creative thinking, and speaking skills.

Science Stuff – Experiment with everyday cooking products to discover the surprising reactions that occur. Design aircraft, build catapults, test projects for performance, and much more.

Speech Challenge – Learn to share a story or experience concisely, interestingly, and with good enunciation before a small classroom group. Be it funny, serious, your own composition, or something you memorize, this class will help you build self-confidence and communication skills that are important for life.

Sports 9-12 - Try your hand at a variety of sports, including basketball, disc golf, tennis, softball, flag football, frisbee, badminton, track, and more! If it rains? There is a plan for that, too!

Sports Fun 6-8 – When it is sunny, enjoy outdoor games and sports that incorporate fun relays, field games, and sports. If it rains? There's a fun plan for that, too!

STEM Camp- Science, Technology, Engineering, Math, Oh My! Various projects will be demonstrated with hands-on activities and lessons in STEM. Weeks vary by theme.

Swimming & Sports – This afternoon class begins with lessons in basic water safety, and swimming. It finishes with a variety of sporting activities. Bring a swimsuit and towel for the first half; then change back into play clothes for a great sports finish to each day. (Lifeguards are always on duty at the college pool and swim classes are divided into groups of swimmers and non-swimmers for instruction.)

Weaving – Learn simple macramé weaving techniques to create wall hangings, bracelets, belts, plant hangers, etc.

Zoology – This is not being offered as a camp this summer due to the stress on the animals. But, anticipate surprise visits from Todd Quinn to show his “small zoo” – days and times are to be determined.

Theatre Camp & Specialty Camps:

Gymnastics Specialty Camp for Ages 6-8- Learn the basics of gymnastics skills such as forward rolls, backward rolls, cartwheels, handstands and bridges, as well as coordination, agility, strength and flexibility. This course sets a foundation for basic knowledge of the sport of gymnastics. Instruction is by Panhandle Perfection instructors.

Martial Arts Specialty Camp for Ages 9-12- Comprehensive program teaches self-defense, self-confidence, physical fitness, and mental discipline in a non-competitive, safety-oriented environment. Specialty camp will enhance growth and personal development.

Theatre Specialty Camp- Learn techniques from a professional actor to improve your speaking skills, project your voice, use your whole being to project a character, build your confidence to perform before a group, and build skills of teamwork to write and act small skits. A performance for parents and friends is planned for the afternoon of the last day of this camp.
